Description

The UTS-1110A USB to serial conversion cable is designed for PC, thin client, or server to provide an instant COM port expansion via the Universal Serial Bus (USB). The UTS-1110A provides the scalability to quickly adapt to new USB technologies.

With the USB Plug-and-Play feature, simply plug in, follow the instructions of Install Wizard, then you are done. You don't have to deal with Card Slots, I/O address, IRQ jumpers, DMA and others when you are connecting the devices. The System will recognize the device and install the drivers automatically. The UTS-1110A is an ideal solution for your expanding applications.
