## INTRODUCTION

Antaira Technologies' LNX-500AG industrial Gigabit unmanaged Ethernet switch series is IP30 rated and DIN-Rail mountable with 5\*10/100/1000Tx, making it ideal for applications that demand a high bandwidth connectivity solution.

This series provides a high EFT and ESD protection that has a dual power input with a reverse power polarity protection. In addition, the built-in relay warning function alerts maintainers when power failures occur. There is a wide operating temperature model that supports -40 to 75°C. The LNX-500AG series is an ideal solution for harsh outdoor weather environments and industrial applications.
