Notebook to Tablet Convertible 12.1" TFT LCD WXGA Display

Embedded with Getac QuadraClear™ Sunlight Readable Technology: Up to 1200 nits with Multi-touch Screen

- Water Resistant Reversible Webcam
- LifeSupport™ Battery Swappable Technology
- Full-sized Keyboard
- **Integrated GPS and Wireless Access**
- MIL-STD-810G and IP65 Certified

An effortless spin turns Getac V200 rugged notebook into a rugged tablet PC. Paired with Intel® Core™ i7 vPro™ processor, V200 offers industry-leading efficiency, extraordinary battery durability with fan-less design. It also features sturdy magnesium-aluminum alloy enclosure, shock-protected HDD and sealed I/O ports, and is impact resistant. MIL-STD-810G and IP65 certified, V200 with micro particle proof and waterproof capabilities presents professionals working in demanding environments with a multifunctional and reliable solution.

Adaptive to different user contexts, V200 comes with a full-sized keyboard of 88 keys and a resistive multitouch screen that would allow users to operate with gloves on. It integrates a built-in 2M pixels camera, a GPS receiver and multiple connection capabilities including blue tooth, WLAN and WWAN, as well as advanced TPM1.2 for information protection, making it the best choice for field professionals.

Right Side

- Batterv × 1
- HDD x 1

Rugged Mobile Computing Solutions

Windows®. Life without Walls™. Getac recommends Windows 7.

Industry Applications

Military

MIL-STD-810G and IP65 certified, V200 presents excellent resistance to water/ liquid, dust and shock, offering maximum flexibility in operation even in the most daunting conditions indoors or out. Embedded with QuadraClear™ sunlight readable technology of 1200 nits, V200 is built to facilitate work such as fleet management or maintenance efforts for soldiers and military personnel in glaring sun by avoiding disturbing reflections.

Utility

Maintenance staff for water, electricity and gas utilities often finds themselves working in environment where unfavorable factors such as high temperature or humidity, dust and shocks come into play. With its study build, V200, passing rigorous testing in some of the toughest conditions, allows the crew to work in all kinds of environments at ease. Its high resolution display enables users to read charts and illustrations with details critical to repair or maintenance work. In addition, V200 comes with comprehensive in-car peripherals, including a vehicle dock and a car adapter, ensuring smooth operation onboard.

Transportation

Precision and efficiency matter to transportation professionals. Thanks to V200's integrated GPS and wireless connection, drivers can receive route planning and relevant instructions from the headquarters via wireless network. Its resistive multitouch screen allows users to operate on the panel with gloves on performing selection tasks or data transmission. V200 is a powerful tool and an ideal solution for professionals of the transport sector.

Share memory size may vary by different operating system and RAM size.

Battery life testing conducted under BatteryMark 4.0.1. Battery performance will vary upon software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. The battery has a limited number of charge cycles and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.

The system will stay operating (within 120 seconds in standby mode) when user swaps the battery.

Weight varies from configurations and optional accessories.

MIL-STD-461F 90W AC adapter sold separately

Tested by a national independent third party test lab following MIL-STD-810G
