Plug and Play Media Player
- 
Integrated Speakers
- 
Multiple AV Inputs
- 
Wide Viewing Angle
- 
Portrait or Landscape
- 
Eco-Friendly Power Timer
- 
Commercial Grade
- 
Temperature Control

SUNLIGHT READABLE

Brightness is paramount when using outward facing screens, these displays use commercial grade Ultra High Brightness panels (1500 cd/m2); more than 3 times brighter than a standard home TV to allow easy readability in direct sunlight.

COMMERCIAL GRADE PANEL AND COMPONENTS

Fitted with a commercial grade panel, with a lifespan of 50,000 hours, and using high quality components ensures that this display can be in constant use 24/7.

ENVIRONMENTALLY FRIENDLY POWER TIMER

This allows for reduced power usage by automatically powering off in hours that the displays are not required. You can set daily On/Off times for your displays.

BUILT-IN MEDIA PLAYER

As well as having AV inputs, these displays also have a built-in HD media player allowing you to run content copied from a USB drive. Load your pictures and videos onto a USB memory stick then insert it into the display, the screen will then start playing the pictures and videos in a continuous loop.

HIGH BRIGHTNESS PROFESSIONAL MONITOR RANGE (32", 42", 46", 55" & 65")

ADVANCED TEMPERATURE CONTROL SYSTEM

The internal air-conditioning system allows the screens to be in constant use in an outward facing window. Internal fans keep the panel and other internal components at the optimum working temperature; ensuring a long and reliable life for your screens.

BUILT-IN SPEAKERS

The display has two integrated slimline speakers for applications that involve an audio element.
