## Specifications

### ASL-S

|                       |                                                                   |
|-----------------------|-------------------------------------------------------------------|
| Video System          | PAL                                                               |
| Pick Up Element       | 1/4" CMOS Image Sensor                                            |
| Image Signal Process  | Digital Signal Processing System                                  |
| Lens / Viewing Angle  | 3.6mm Lens/120 Degree                                             |
| Number Of Pixel       | 1280x720                                                          |
| Effective Pixels      | Approximately 3 Megapixel                                         |
| Resolution            | AHD 720P                                                          |
| Power Supply          | DC 12 ± 1A, Aviator Connector to MDVR                             |
| Power Consumption     | 80mA                                                              |
| Scanning System       | 2:1 Interlace                                                     |
| Sensitivity           | 0.01 Lux (IR 10m)                                                 |
| S/N Ratio             | Max 50 dB                                                         |
| Auto Gain Control     | Auto                                                              |
| Mirroring             | Optional (BV)                                                     |
| White Balance         | Auto                                                              |
| Electronic Shutter    | Auto: 1/50 S to 1/100,000 S (Pal)                                 |
| Output                | 1 Vp-p Composite Video Output, 75 OHMS, Aviator Connector to MDVR |
| Operating Temperature | -10°C ~ +60°C                                                     |
| Dimensions (HxWxD)    | 63 x 77 x 89 mm                                                   |
| Weight                | 270g                                                              |
| IR Range              | 10m                                                               |
| Video cable length    | 40cm                                                              |
| IP Rating             | IP69                                                              |

## Assured Systems

Assured Systems is a leading technology company with over 1,500 regular clients in 80 countries, deploying over 85,000 systems to a diverse customer base in 12 years of business. We offer high-quality and innovative rugged computing, display, networking and data collection solutions to the embedded, industrial, and digital-out-of-home market sectors.
