

Heavy Duty 7" LCD Monitor with Quad View, 4 Video Inputs, Built-in Speaker and Flexible Bracket (Model: ASL7QLCD)

Heavy duty high resolution 7" LCD monitor with 4 inputs and automatic power on. The unit allows for selection of side/rear cameras, front/rear, left/right side or 360° split screen displays and is designed to be mounted to the dashboard.

The ASL7QLCD is a high resolution 7" LCD monitor designed for mounting to a dashboard.

The monitor is designed for heavy duty applications, and is ideal for use in commercial vehicles. The monitor has 4 inputs for connection to cameras or recorders.

The monitor will display each input full screen, and also has a trigger input, this can be wired to a trigger so that for example when reverse gear is selected input 4 automatically appears on the screen.

The ASL7QLCD also supports multi camera displays:

2 cameras together:

- With each using half of the screen, either left and right, or top and bottom

3 cameras together:

-

Various layouts can be used to view cameras, please refer to manual.

4 cameras together:

- With each using a quarter of the screen, or with the side cameras using the left and right side of the screen, and the front and rear cameras using the top, middle and bottom middle of the screen.

In 4 camera split screen mode the monitor can provide 360° viewing of the area around a vehicle, provided it is connected to 4 cameras

Specifications
